DAHLE®

WHY CLEANTEC?

You can't see it, feel it, or taste it - Yet it can pose a considerable risk to your health. It's created by everyday mechanical and electronic devices in the form of tiny dust particles in the air. These electronic devices also include paper shredders. Each time paper is shred, tiny dust particles are produced and travel through the air. When inhaled, the smaller the particle of dust is, the more harmful it can be to your health.

With a Dahle CleanTEC®, fine dust is collected where paper is shredded, and forced through a specialized 3 ply filter. This fully recyclable filter is made of a nonwoven material, and permanently traps up to 98% of the fine dust created. Dahle CleanTEC® shredders will reduce exposure to harmful dust particles, and provide a cleaner, healthier work environment.

The Future of Data Security is here! The Dahle CleanTEC® Shredder is the most technologically advanced shredder ever developed and features the world's first shredder with an integrated dust filtration system. These intelligent machines are also equipped with revolutionary features such as Safe Technology, ESP, and SmartPower Energy Management.

CLEANTEC®

Improving the air quality in the office is the basic foundation of the CleanTEC® design. This integrated air filtration system collects fine dust where it is created, directly above the cutting cylinders. The dust is then pulled through a closed system into a specialized CleanTEC® filter on the back of the machine. This filter permanently traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

SAFE TECHNOLOGY

Safety continues to be the priority with every Dahle product and each CleanTEC® shredder features the most advanced safety features in the industry. Equipped with the revolutionary Safe Technology Package, each shredder offers Verbal and Contact Emergency Shutdown. In the event of an emergency, simply say "Stop" or tap the top cover of the machine, and the shredder immediately stops. The feed opening of the shredder is reinforced with steel and only large enough to accept paper. As an added safeguard, this opening contains electronic sensors that will turn the shredder off, should your fingers get too close. An emergency shutoff switch is also located on the back of the machine as yet another level of personal safety.

ESP PROTECTION

The easy-to-use command dial controls all of the machine's functions and notifies the user when sheet capacity is exceeded, when to replace the filter, and even when to change the shred bag. Equipped with ESP (Electronic Sensing Protection), the shredder "Knows" how much paper you're trying to shred and won't allow sheet capacity to be exceeded. The command dial illuminates green when shredding

under capacity, yellow when getting close, and red when capacity is exceeded. When illuminated red, the shredder will not operate until paper is removed and proper sheet capacity is met. This feature not only eliminates the guesswork of how much the machine will shred, but it also saves time and frustration caused by an overfeed.

SMARTPOWER

CleanTEC® shredders operate using the intuitive SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (*sleep mode*), and completely powers down to a 0% energy draw after 30 minutes of inactivity. This makes Dahle CleanTEC® the most energy efficient shredders on the market. The SmartPower System will appeal to those interested in conserving energy as well as reducing electrical costs.

SPECIAL FEATURES

CleanTEC® Filtration: Eliminates up to 98% of the fine dust particles produced by the shredder. This provides improved air quality and promotes a healthy work environment.

Safe Technology: Revolutionary Verbal and Contact Emergency Shutdown System. In an emergency, simply yell "Stop" or hit the top cover and the shredder immediately stops.

Electronic Sensing Protection (ESP): The shredder "Knows" how much you're shredding. When sheet capacity is exceeded, the shredder will not operate until paper is removed and proper capacity it met.

SmartPower: Multi-stage energy management system that reduces power consumption when sitting idle, and eliminates power use after 30 minutes of inactivity.

EvenFlow Lubricator: This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance (excludes strip cut models).

Made In Germany: Shredders are manufactured in Germany by Dahle Bürotechnik GmbH using the finest materials and latest technology. Over 80 years of experience goes into each product.

SMALL OFFICE SHREDDERS

413XX SERIES

10 1/4" Feed Opening
100-400 Sheets per day
Security Levels 2/3/5
CleanTEC® Filtration
Safe Technology
SmartPower Management

412XX SERIES

9 1/2" Feed Opening
100-400 Sheets per day
Security Levels 2&3
CleanTEC® Filtration
Safe Technology
SmartPower Management

Small offices or teams of employees will benefit from the ease of use and quiet operation of these small to mid-size shredders. They're designed to shred between 100 and 400 sheets of paper per day, and are perfect for destroying personnel records, client proposals and tax information.

The CleanTEC® 412xx Series is a compact shredder with a 9 1/2" feed width that empties into a 11 gal. waste compartment. The 413xx

Series offers a slightly larger 10 1/4" opening and a 23 gal. waste bin. These elegantly designed shredders are also some of the quietest ever produced. The all steel cutting head rests on vibration absorbing rubber shock mounts. When in operation, the entire head "floats" in the wooden cabinet and produces minimal noise.

The CleanTEC® advantage is an intelligently designed shredder that

Model	Feed Width	Capacity #20/#16	Security Level	Shred Size	CDs / DVDs	EvenFlow Lubricator	Waste Volume	Dimensions h x w x d	List Price

OFFICE SHREDDERS

414XX SERIES

10 1/4" Feed Opening
400-2,000 Sheets per day
Security Levels 2-5
CleanTEC® Filtration
Safe Technology
SmartPower Management

Dahle Office Shredders are designed to accommodate the needs of most busy offices by shredding between 400 and 2,000 sheets of paper per day. This is the perfect device for properly destroying marketing plans, health records, and any other confidential information.

The CleanTEC® 414xx Series offers a 10 1/4" feed width, 30 gal. waste bin, sound deafening wooden cabinet, and lockable, swivel casters. The

easy-to-use command dial controls all of the machine's functions and notifies the user when sheet capacity is exceeded, when to add oil, and even when to change the shred bag. Equipped with ESP, the shredder knows how much paper you're trying to shred and won't allow sheet capacity to be exceeded.

The CleanTEC® advantage is an intelligently designed shredder that

Model	Feed Width	Capacity #20/#16	Security Level	Shred Size	CDs / DVDs	EvenFlow Lubricator	Waste Volume	Dimensions h x w x d	List Price

SMALL DEPARTMENT SHREDDERS

415XX SERIES

12" Feed Opening
2,000-8,000 Sheets per day
Security Levels 2-5
CleanTEC® Filtration
Safe Technology
SmartPower Management

Dahle Small Department Shredders are designed for multiple users and an approximate shred volume between 2,000 to 8,000 sheets per day. Placement is typically found in centralized office locations such as a mail or copy room, or communications center.

The CleanTEC® 415xx Series Shredder offers a 12" feed width, 38 gal. waste bin, sound deafening wooden cabinet, and lockable, swivel cast-

ers. The Safe Technology package includes the revolutionary Verbal and Contact Emergency Shutdown System. In an emergency, simply yell "Stop" or hit the top cover and the shredder immediately stops. Electronic sensors will also turn the machine off if fingers should wander toward the steel reinforced feed opening.

The CleanTEC® advantage is an intelligently

designed shredder that provides air filtration, highly advanced safety features, ESP protection, and automatic lubrication. Now add the benefits of Dahle's SmartPower Energy Management System, and you'll discover that CleanTEC® is the only shredder on the market that benefits your health, and the environment.

DEPARTMENT SHREDDERS

416XX SERIES

16" Feed Opening
2,000-12,000 Sheets per day
Security Levels 2-5
CleanTEC® Filtration
Safe Technology
SmartPower Management

Known for their power and waste capacity, Dahle Department Shredders provide a practical solution for the destruction needs of even the busiest offices. These machines can continually shred large quantities of paper and are designed to shred between 2,000 and 12,000 sheets per day.

The CleanTEC® 416xx Series offers a 16" feed width, 45 gal. waste bin, sound absorbing wooden cabinet, and lockable, swivel casters. Each

shredder is equipped with the SmartPower Energy Management System. This is a multi-stage system that reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down to a 0% energy draw after 30 minutes of inactivity. This makes Dahle CleanTEC® the most energy efficient shredders on the market.

The CleanTEC® advantage is an intelligently

Model	Feed Width	Capacity #20 / #16	Security Level	Shred Size	CDs / DVDs	EvenFlow Lubricator	Waste Volume	Dimensions h x w x d	List Price

HIGH SECURITY SHREDDERS- LEVEL 6

LEVEL 6 SHREDDERS

1mm x 4.7mm Shred Size
CleanTEC® Filtration
Safe Technology
ESP Protection
SmartPower Management
Auto Lubricating

In order to protect our National Security, military and government agencies require higher levels of security from their paper shredders. As a solution, Dahle offers CleanTEC® High Security Shredders that produce a 1mm x 4.7mm particle size.

Depending on your daily shredding, the CleanTEC® Level 6 machines are available in four different sizes and waste volumes. Each shredder includes the integrated Clean-

TEC® Filtration System where fine dust is collected above the cutting cylinders. The dust is then pulled through a closed system directly into the specialized filter on the back of the machine. This CleanTEC® filter permanently traps up to 98% of the fine dust, providing a cleaner, healthier work environment.

The CleanTEC® advantage is an intelligently designed shredder that

provides air filtration, highly advanced safety features, ESP protection, and automatic lubrication. Now add the benefits of Dahle's SmartPower Energy Management System, and you'll discover that CleanTEC® is the only shredder on the market that benefits your health, and the environment.

THE CLEANTEC® ADVANTAGE

CLEANTEC® FILTRATION

Eliminates up to 98% of the fine dust particles produced by the shredder. This provides improved air quality and promotes a healthy work environment.

SAFE TECHNOLOGY

Revolutionary Verbal and Contact Emergency Shutdown System. In an emergency, simply yell "Stop" or hit the top cover and the shredder immediately stops.

ESP PROTECTION

The shredder "Knows" how much you're shredding. When sheet capacity is exceeded, the shredder will not operate until paper is removed and proper capacity is met.

ALL STEEL FRAME

Keeps the cutting cylinders in perfect alignment for optimal performance.

SOLID CUTTING HEAD

A solid block of German Solingen Steel is milled to create each cutting cylinder.

CHAIN DRIVEN

Provides slip-free power to the cutting mechanism for maximum throughput.

EVENFLOW LUBRICATOR

This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance (excludes strip cut models).

DOOR OPEN INTERLOCK

Prevents the shredder from operating with the door open. This safety feature is found on all models.

SMARTPOWER

Multi-stage energy management system that reduces power consumption when sitting idle, and eliminates power use after 30 minutes of inactivity.

THERMALLY PROTECTED MOTOR

Thermal protection prevents damage to the motor from overheating.

SHOCK MOUNTS

The shredding module sits on rubber mounts to isolate noise and vibration from the cabinet, making Dahle shredders some of the quietest on the market.

WOODEN CABINET W/SWIVEL CASTERS

Attractive wood cabinets help reduce noise and fit in with any office decor. Swivel casters make it easy to move your shredder from office to office.

SHRED BAG

Dahle Shred Bags features gussered sides to expand to the maximum capacity of your shredder cabinet.

*Some components not available on certain models.

LIMITED LIFETIME WARRANTY

Dahle guarantees CleanTEC® shredders to be free from manufacturing defects (materials / workmanship) for a period of 2 years. Dahle offers a lifetime guarantee on the cutting cylinders (1 year on Security Level 5 and Level 6 models).

This warranty does not cover damage caused by improper oiling, paper jams, misuse, abuse, improper line voltage, or unauthorized repair. This warranty applies to the original purchaser only and is not transferable. There are no other warranties expressed or implied beyond the face of this agreement. For service or more information on this warranty, contact a Dahle Account Representative at (800) 995-1379.
