Preview: Custom Logo & Text Information Requirements

- Our wireless microphones allow you to speak from anywhere in the room. Wireless microphones can be added to allow multiple presenters to speak simultaneously.
- A - Setup our Audio Portable Buddy SW222 outside the circle aimed towards participants.
 - B - Setup our Roving Rostrum Podium PA SW124 in the front of the classroom. With 180 Degree sound coverage from its angled speakers, you will be heard no matter where you place the unit in the classroom.
 - C - Setup our iPod Portable PA System SW720 in the front of the class and plug-in projector to video-out. Voice priority feature allows you to interrupt DVD or music by lowering the volume level so you can be heard on the media you're showing.
 - D - Setup our Victoria Solid Hardwood Lectern SW3020 to one side of the banquet hall, and additional a wireless powered speaker at the opposite side. Wireless will let you roam the room to maintain eye contact with every table.
 - E - Setup our Modular Tabletop Lectern SW250 on the desk at the front of the room, and plug audio out from projector into built-in sound system for full multimedia presentation.
 - F - Setup our Multimedia Computer Lectern SW3230 with projector, computer and document camera on appropriate surfaces. Securely store laptop and multimedia equipment in locking storage. Built-in speakers and wireless mic allow multiple presenters to be heard anywhere in the room.
 - G - Setup our Presidential Plus Lectern SW450 at the front of the room with wireless powered speakers placed at the other side. Speak from behind the lectern or anywhere in the room with wireless microphones.
 - H - Setup our Adjustable Sound Column Lectern SW505A at the front of the classroom, and wireless powered speakers at the four corners of the room. Wireless mic allows you to roam the aisles. Great for audiences of 250 to over 5,000.

Preserve the World's Natural Resources

AmpliVox is committed to preserve the world's natural resources. We all know that natural resources are limited and fragile. Environmental protection is everyone's responsibility at AmpliVox. This policy addresses operations which can positively impact the environment.

AmpliVox pledges to

- Use "Forest Friendly" products. Our Lecterns and Podiums are produced using recovered and recycled post-industrial wood residues. This solid chain-of-custody wood fiber supply practices have helped AmpliVox to secure the Forest Stewardship Council (FSC) Mixed Sources accreditation (SW-COC-003089).
- Reduce the waste arising from electrical and electronic equipment and to improve the environmental performance of all items involved in the life cycle of these products. We comply with the WEEE Directive (2002/96/EC).

- Continually improve environmental management policies, programs and performance, based on the results of our periodic reviews and taking into account regularity developments, customer needs, technical developments, scientific understanding and community expectations.
- Reduce and eliminate waste through recycling and disposal of waste through safer and responsible methods.
- Promote employee awareness of environmental concerns, actions and responsibilities.

All AmpliVox products that are eco-friendly are identified by:
